**PRODUCT RANGE: KING** 

**CODE: KING-STRRAT-00** 

**DESCRIPTION: ROTATING ROUND STOOL HEIGHT ADJ. W/TRAY LM** 

## PRODUCT FEATURES:

The Rotating Round Stool Height Adj. with Tray allows increased independence during the shower stages of daily personal hygiene, reducing muscle fatigue due to standing position as well as slipping and injury risks. It comes with a tray that makes it even more useful and stable. This practical surface serves for placing toiletries or other essentials within easy reach during bathroom activities. The non-slip rubber feet ensure grip with the floor, and the height-adjustable legs allow the user to change the total height easily according to their requirements. In addition, the shower stool with customised height can be used with different setting length between the front and rear legs. In particular, the front legs can be lower than the rear ones: this allows the user to keep more correct postures while taking a shower, as well as to facilitate the standing and sitting procedures. Due to its flexibility, the shower stool can be positioned even on bumpy and irregular floor, like those typical of many shower trays. The shower stool is light weight.

## MECHANICAL PERFORMANCE:

Max user weight 170 kg; 375 lb.
